ADOPT AN ANIMAL

Dear Guangyi,

On behalf of Terri, Bindi, Robert, and all of the crew here at Australia Zoo, thank you for adopting me.

G'day, my name is Agro and I'm an impressive saltwater crocodile. I'm over 4.5 metres (14.7 feet) long and weigh more than 600 kilograms (1320 pounds). Crikey! You might remember me from the original *Crocodile Hunter* series with Steve; I'm a seasoned TV star!

I got my name 'Agro' because, well, I can be very protective of my home – especially from lawnmowers. I have successfully defended my home against many blasted mowers during my lifetime.

I've been at Australia Zoo since 1988 and I came to be here because I was frequenting public areas, and seen as a 'problem crocodile'. My fate may have been different if Steve and the Australia Zoo Crew didn't rescue me and give me a luxury home and a free feed! It was here I met the love of my life, Cookie. You can spot me enjoying my lake and sunbaking with my gorgeous girlfriend. Make sure you drop by and say g'day!

Your adoption helps us to continue our fight for wildlife conservation, whilst supporting vital breeding programs, veterinary requirements, new and updated habitats, animal rehabilitation programs, and the general husbandry needs of the over 1,200 who call Australia Zoo home.

Thank you very much for supporting Australia Zoo's conservation of wildlife and wild places.

Crocodially yours,

Agro the Saltwater Crocodile
Australia Zoo
Steve Irwin Way, Beerwah, QLD 4519
